Sovereign AI for Cultural Integrity & Social Legitimacy

Local Language Preservation

ILMU, MALAYSIA

Government-supported LLM for Bahasa Melayu and local dialects, embedding language, values, and social norms while running on sovereign AI infrastructure.

Indigenous Data Protection

TE KĀHUI RARAUNGA, NEW ZEALAND

Framework ensuring Māori consent and authority over data; Te Hiku Media self-hosts te reo Māori voice datasets to prevent unconsented international AI training.

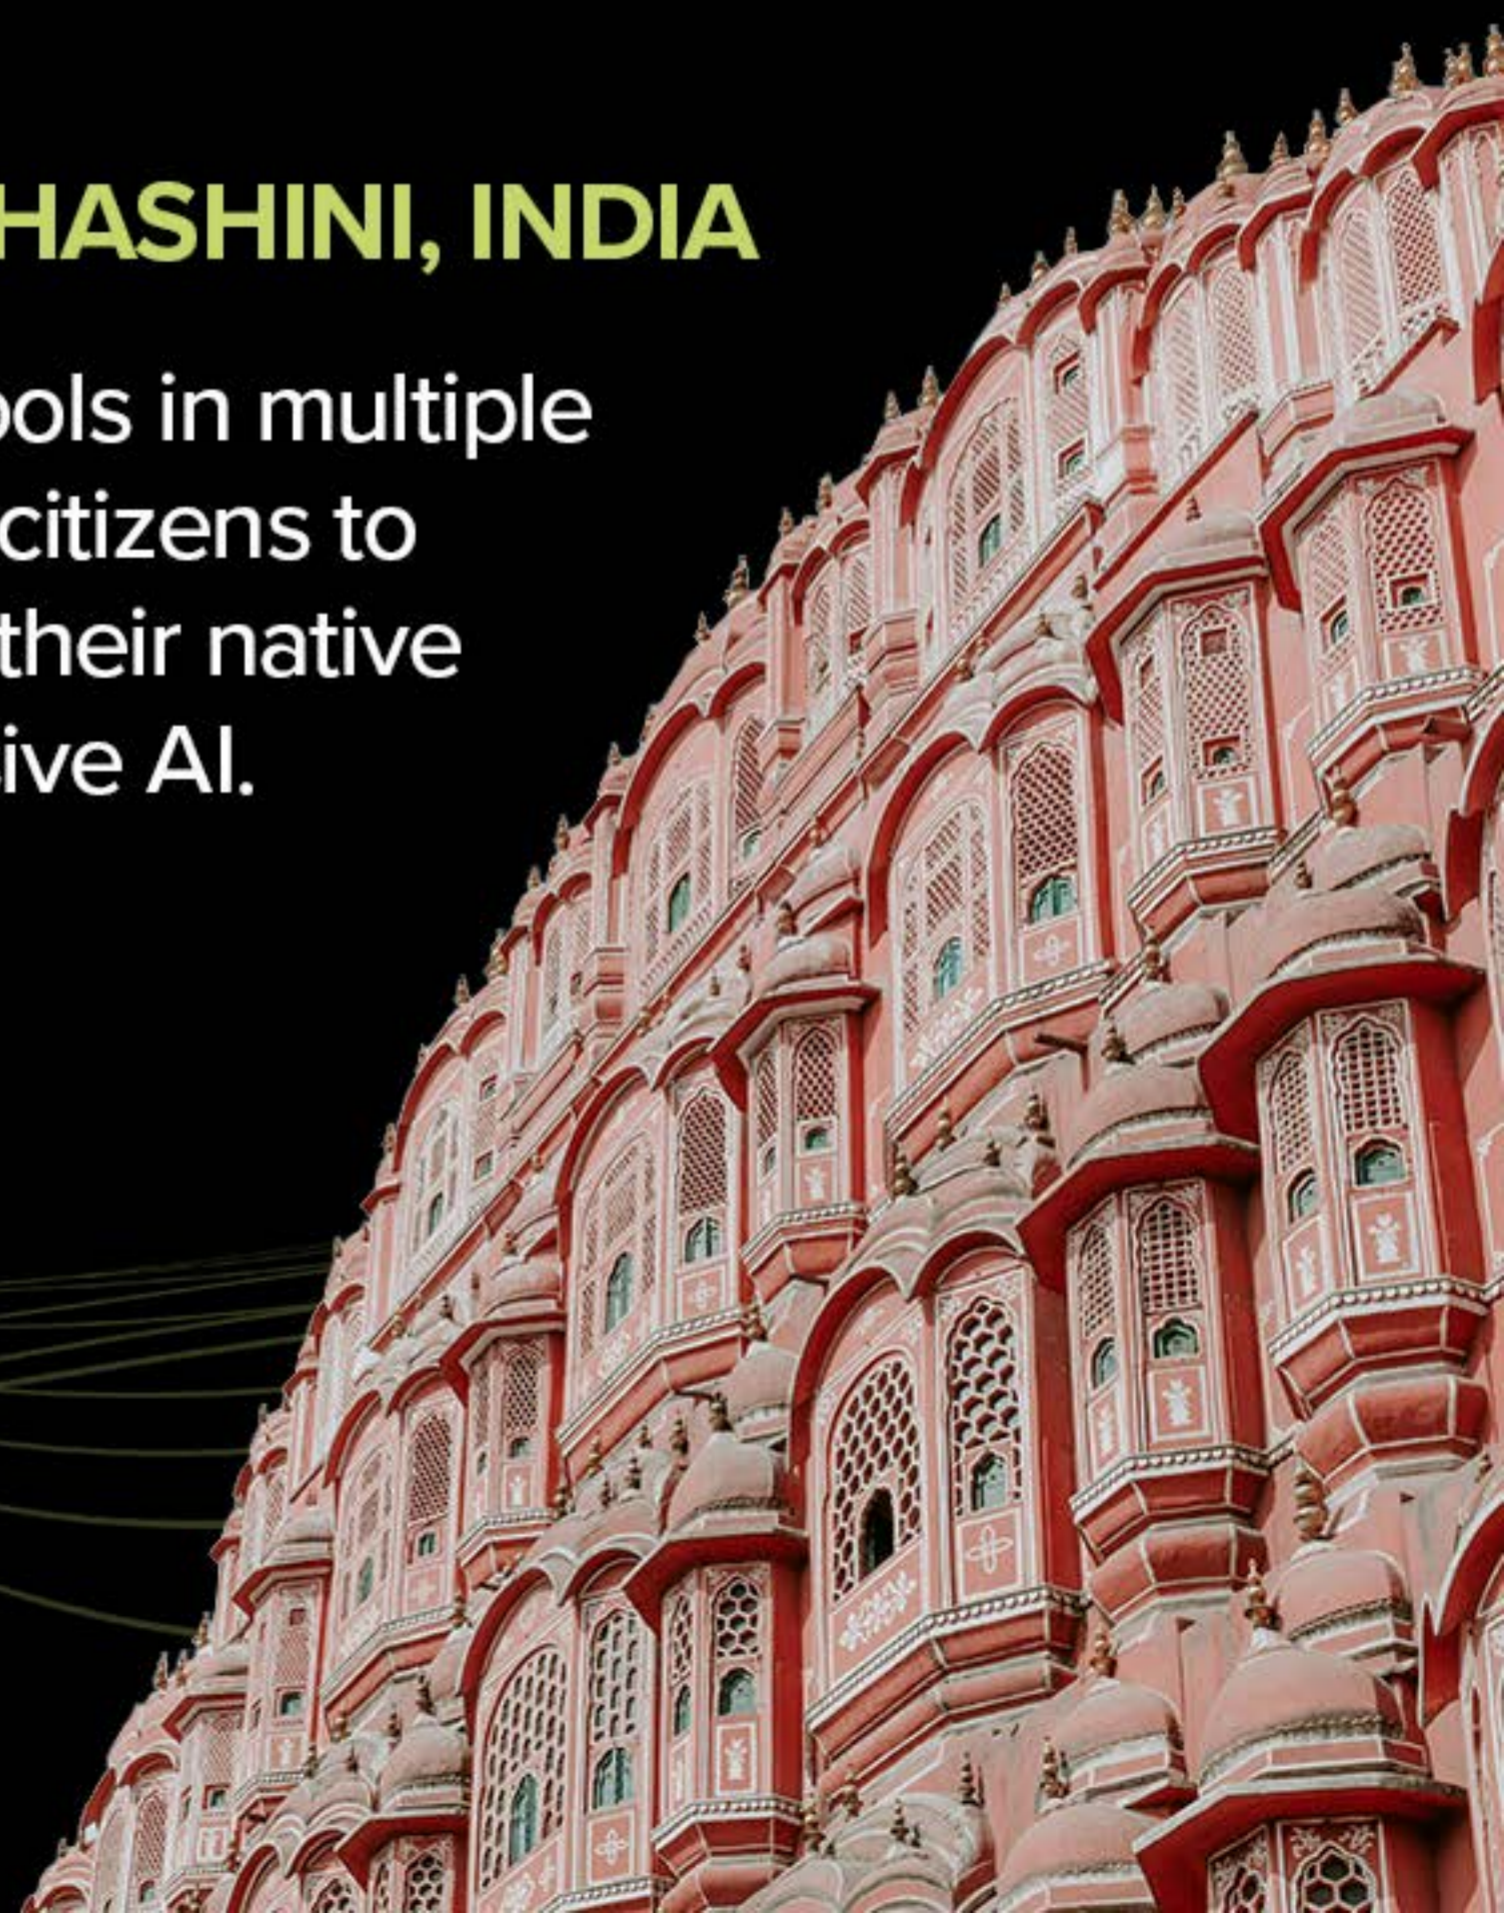

Diversity & Inclusion

INDIAAI MISSION & BHASHINI, INDIA

Speech and translation tools in multiple Indian languages enable citizens to access digital services in their native tongue, supporting inclusive AI.

Values-Driven Governance

AI VERIFY, SINGAPORE

Standards for fairness, transparency, accountability, and human oversight, reflecting Singapore's rule-based governance and social cohesion.

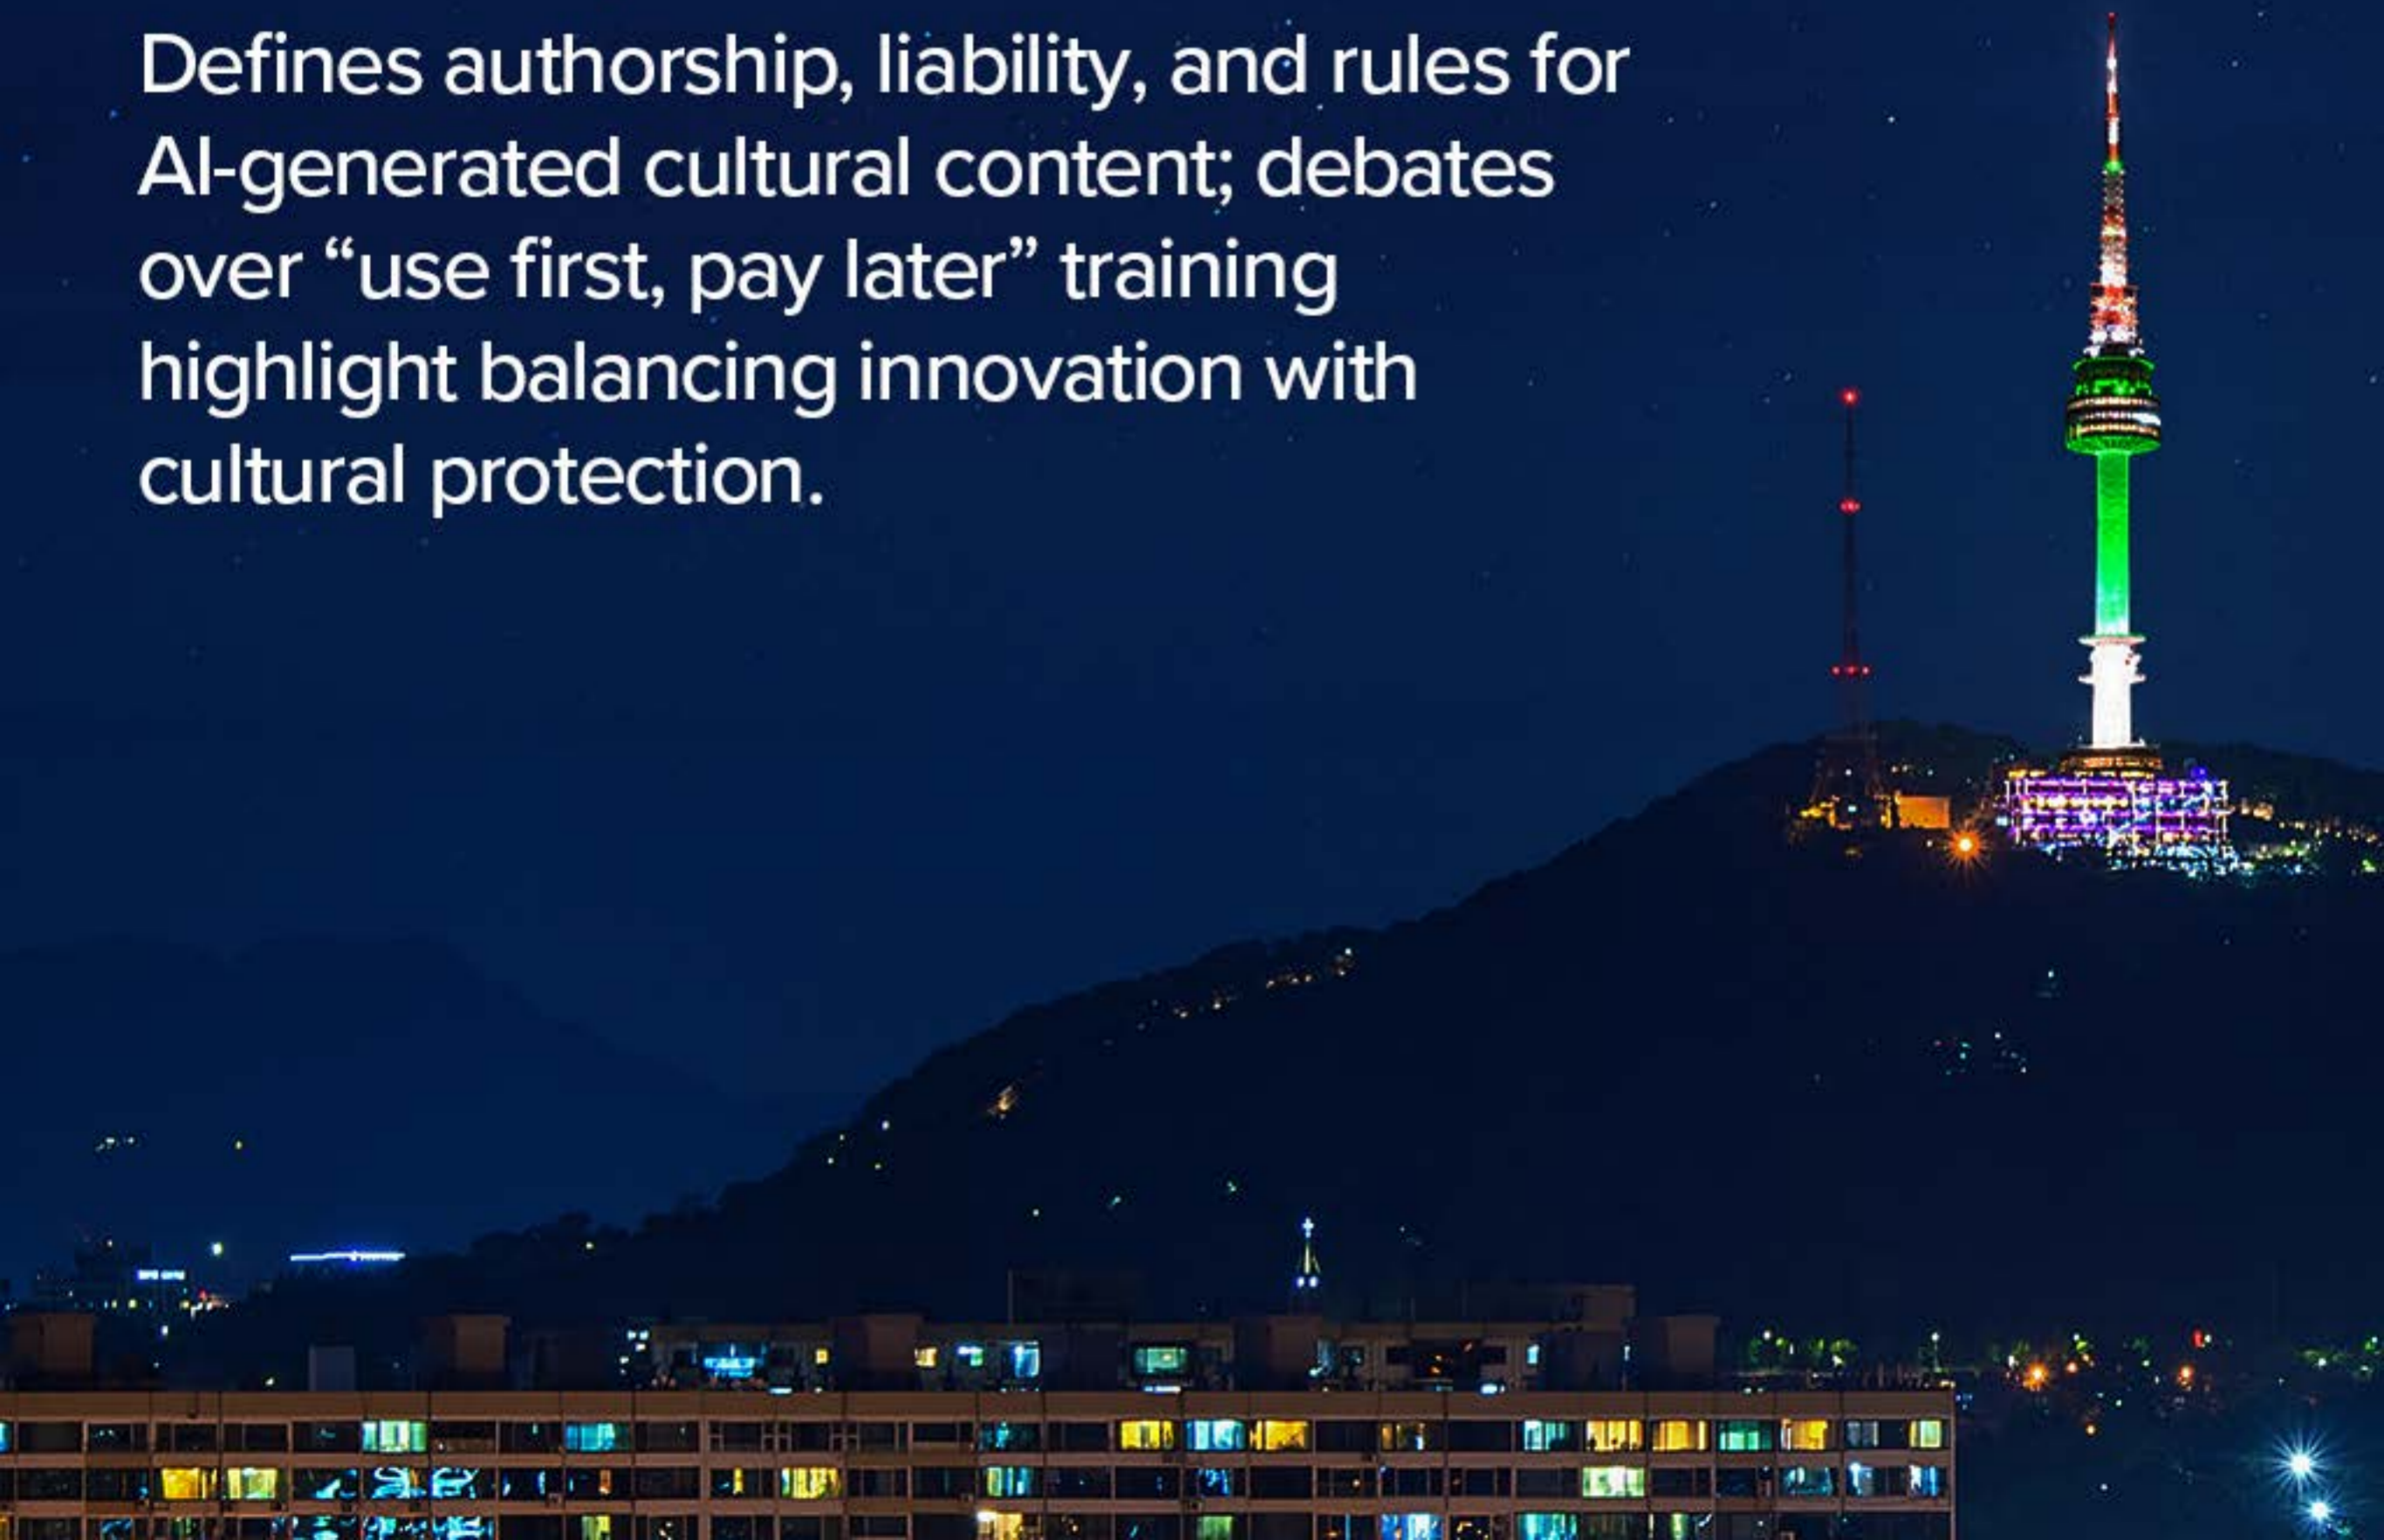

Creative Protection

AI BASIC ACT, KOREA

Defines authorship, liability, and rules for AI-generated cultural content; debates over “use first, pay later” training highlight balancing innovation with cultural protection.
